## Abstracts

Trail sports accessories are products designed for running, or hiking on trails, and include several design features. Accessories used in trail sports differ from those used in track running or road running, as these accessories have to adapt the mountainous terrain, wherein much larger descents and ascents are encountered.

This report elaborates the market size, market characteristics, and market growth of the Trail Sports Accessories industry, and breaks down according to the type, application, and consumption area of Trail Sports Accessories. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Trail Sports Accessories in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
