Credentialing is a common application in corporate work. Take medical staff credentialing software as an example. Manually compiling medical staff and provider credential packets is not only slow, but it creates room for error. By automating much of the medical staff credentialing process, OnBase enterprise content management (ECM) solutions help healthcare organizations comply with Joint Commission and CMS standards. And, by tracking all applications and related data in one central and secure location, OnBase helps ensure you have complete medical provider credential packets.

The Credentialing Software market revenue was xx.xx Million USD in 2019, and will reach xx.xx Million USD in 2025, with a CAGR of x.x% during 2020-2025.
