Abstracts

Health and Wellness are often used interchangeably, but they have slightly different meanings. Health is more of a medical term and describes the physical and mental state of a person. It usually denotes a lack of disease or abnormality. Wellness, on the other hand, is defined as the overall process of maintaining a general state of good health. Wellness involves conscious decisions on the part of the individual, whereas health simply describes a person's condition. As people decide to change their habits and pursue healthier lifestyles, many different companies stand to benefit. Health food retailers, manufacturers of exercise equipment, and companies that produce vitamins or nutritional supplements could all see increased demand for their products as a result of the health and wellness trend.

The Health and Wellness market revenue was xx.xx Million USD in 2019, and will reach xx.xx Million USD in 2025, with a CAGR of x.x% during 2020-2025.
