Abstracts

International financial transactions are based on several financing philosophies, whose application is affected by the course of economic growth and development within an individual national economy. This is demonstrated by the evolution of the financing technique known as International structured trade & commodity finance (STCF).

STCF is "cross-border trade finance in emerging markets where the intention is to get repaid by the liquidation of a flow of commodities." Structured commodity finance (SCF) is a sophisticated commodity-based financing technique, specifically designed for commodity producers and trading companies doing business in the developing markets. Introduced in the early 1990s, SCF continues to play an important role, providing liquidity management and risk mitigation for the production, purchase and sale of raw, semi-refined or semiprocessed materials.

The Structured Commodity and Trade Finance market revenue was xx.xx Million USD in 2019, and will reach xx.xx Million USD in 2025, with a CAGR of x.x% during 2020-2025.
