## **Abstracts**

Reinsurance is insurance that is purchased by an insurance company. In the classic case, reinsurance allows insurance companies to remain solvent after major claims events, such as major disasters like hurricanes and wildfires. Agriculture is a growth area. As a growing global population and changing diets fuel demand for higher crop output, we protect the capital needed to increase production. Agriculture reinsurance covers the production and financial risks of farmers and related shortfall risks of interconnected stakeholders.

Based on the Agriculture Insurance and Reinsurance market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
