Abstracts

From 2019 to 2020, the global agricultural tourism market will grow by nearly \$54.63 billion, with a compound annual growth rate of nearly 18%. In recent years, the trend of instant booking has had a positive impact on the growth of the global agricultural tourism market, as such booking processes are associated with minimal or zero waiting times. In addition, the online agricultural travel website facilitates real-time bookings, which will increase the convenience of booking agricultural travel and help increase customer satisfaction.

Based on the Agritourism market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
