## Abstracts

Aircraft refueling trucks are also ordinary refueling vehicles. However, many aircraft use aviation kerosene, which is different from ordinary diesel gasoline. Aviation kerosene is corrosive to common metals, so all tanks, pipelines, pumps, tankers, etc., where all kerosene flows are required to be protected with stainless steel. The cost will be several times that of a regular fuel truck.

The report combines extensive quantitative analysis and exhaustive qualitative analysis, ranges from a macro overview of the total market size, industry chain, and market dynamics to micro details of segment markets by type, application and region, and, as a result, provides a holistic view of, as well as a deep insight into the Aircraft Refueling Trucks market covering all its essential aspects.
