Abstracts

Aloe-Vera is a one of the succulent plant species which grows suitably in tropical climatic conditions. Cultivation of aloe-vera plant is primarily done for medicinal and agricultural uses all over the world. An aloe-vera plant generates two substances i.e. gel and latex. Aloe-vera gel is one of the healthiest parts of the aloe-vera plant and is extracted from leaf's inner layer and can be used in its raw form. However, aloe-vera latex is a yellowish fluid which is not recommended for direct consumption.

Based on the Aloe Vera market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
