Abstracts

Aging is a natural process. Anti-aging refers to some processes that inhibit and delay the aging of the body, promote overall health, and keep the body in good intelligence and strength within the lifespan determined by genetic factors. And aging is a necessary stage of life, no matter how much you don't like it. As the years go by, the skin will have various problems such as wrinkles, sagging, pigmentation, dullness and so on. Antiaging is to help reduce the production of free radicals by supplementing antioxidants, increase skin elasticity, and supplement collagen or enzymes. Anti-aging therapeutics and anti-aging skin care products can effectively delay aging.

Based on the Anti-Aging Products and Therapies market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields.
