Abstracts

Starch obtained from the rootstock of several tropical plants i.e. maranta traditionally known as Maranta arundinacea is known as Arrowroot. Maranta is a large perennial herb found in the rainforest habitats. Arrowroot tuber contains up to 23% starch. It also contains a good amount of potassium, iron and B vitamins. Saint Vincent, one of the largest island in the Caribbean Sea located between Saint Lucia and Grenada has a long history of arrowroot production. Arrowroot powder is naturally gluten free, grain free, vegan and paleo-friendly. Arrowroot has been used as thickening agent in food products like gravies, stews, and sauces. It has a wide range of application in the food and pharmaceutical industry.

Based on the Arrowroot market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
