Abstracts

Auto dealer software, includes products that assist in the operations of automobile retailers. These products can assist with both front and back office tasks, and may provide tools for inventory, cost calculation, financing, and authorization—for both cars and customers (e.g. credit reports, accident history, etc.). Auto dealer software tools can also offer features for preparing and storing warranty information, sales contracts, tracking auto repairs, appraisals, and recurring e-payments.
Based on the Auto Dealer Software market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
