## **Abstracts**

Auto financing, also known as car finance, car financing or auto finance, refers to the range of financial products available that allow people to acquire a car with any arrangement other than a full-cash single lump payment (outright payment).

The provision of car finance, usually by a bank or some kind of financial institution, allows consumers to pay the dealer or manufacturer, even though they not have the money, i.e. car finance allows the consumer to buy a car by borrowing the money so that the seller can be paid.

The Automotive Financing market revenue was xx Million USD in 2016, grew to xx Million USD in 2020, and will reach xx Million USD in 2026, with a CAGR of xx during 2020-2026.

Global Automotive Financing Market Development Strategy Pre and Post COVID-19, by Corporate Strategy Analysis, Landscape, Type, Application, and Leading 20 Countries covers and analyzes the potential of the global Automotive Financing industry, providing statistical information about market dynamics, growth factors, major challenges, PEST analysis and market entry strategy Analysis, opportunities and forecasts. The biggest highlight of the report is to provide companies in the industry with a strategic analysis of the impact of COVID-19. At the same time, this report analyzed the market of leading 20 countries and introduce the market potential of these countries.
