Abstracts

Bath salts are pulverized minerals soluble in water. They are generally added to water during bathing owing to several benefits they offer. They enhance the cleaning action, give good bathing experience and also act as carriers of cosmetic agents. Bath salts that imitate properties of hot springs or natural mineral baths are being developed. Based on the Bath Salts market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
