Abstracts

The beret is an innocent soft standard military cap that is often used as a symbol of the personnel of the national army's rangers, special forces and airborne units. The beret has the advantages of easy folding, no fear of squeezing, easy carrying, and beautiful appearance, and it is also convenient for the jacket steel helmet.

Based on the Berets market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
