## Abstracts

Burial insurance usually refers to a life insurance policy with a death insurance amount ranging from \$5,000 to \$25,000. As their nickname suggests, people buy such policies and provide funeral and burial fees for themselves and/or family members. After answering some health-related questions about the application and not having a medical examination, you can purchase a policy.

Based on the Burial Insurance market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
