Abstracts

Care leasing is seen as a solution to the growing problems faced by companies for their mobility needs, including vehicle funding, fleet maintenance and, more importantly, residual risk handling. Big corporates and businesses, in the current market conditions, are focused on their core products/services and would like to outsource all other support activities. Mobility is a significant cost center which requires resource in terms of money and time. Starting from fleet purchase to re-marketing at a better price, and for each of the intermediary segments in the value chain, issues such as unnecessary cost spikes, utilization mismatches, irregularities in fleet maintenance, and risks of dips in residual value can crop up, unless an expert team is on the job. Corporate prefer leasing the fleet as a hassle-free mobility service which offers on-demand mobility, and fleet after-service facilities, among others.

The report combines extensive quantitative analysis and exhaustive qualitative analysis, ranges from a macro overview of the total market size, industry chain, and market dynamics to micro details of segment markets by type, application and region, and, as a result, provides a holistic view of, as well as a deep insight into the Car Fleet Leasing market covering all its essential aspects.

For the competitive landscape, the report also introduces players in the industry from the perspective of the market share, concentration ratio, etc., and describes the leading companies in detail, with which the readers can get a better idea of their competitors and acquire an in-depth understanding of the competitive situation. Further, mergers & acquisitions, emerging market trends, the impact of COVID-19, and regional conflicts will all be considered.

In a nutshell, this report is a must-read for industry players, investors, researchers, consultants, business strategists, and all those who have any kind of stake or are planning to foray into the market in any manner.
