## Abstracts

A liqueur is an alcoholic beverage made from a distilled spirit flavored with either fruit, cream, herbs, spices, flowers or nuts, and is bottled with added sugars and other sweeteners. Liqueurs are typically sweet. Liqueurs are not aged for a large amount of time once the ingredients are mixed. A resting period during the production process allows the flavors to mingle. In some areas of the United States and Canada liqueurs are also referred to as cordials or schnapps, though the terms refer to different beverages elsewhere.

Based on the Chocolate Liqueurs market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
