Abstracts

Laundry refers to washing clothes and other textiles. The laundry process is usually carried out in a room reserved for this purpose; in a personal home, this is called a laundry room or utility room. Shared laundry facilities are available in the apartment building or student residence. The independent company is known as a laundromat (British English laundromat or American English laundry). The material being washed or already washed is also commonly referred to as laundry.

Based on the Commercial Laundry market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
