Abstracts

The Philippines faced various policy changes which impacted the economy in 2018, raising uncertainties about Filipinos' future spending. Filipinos were enjoying higher disposable incomes as a result of a reduction in personal tax, but towards the end of the year, consumers started to see price rises on basic goods, which made them more wary of spending.

Based on the Consumer Foodservice market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
