Abstracts

Cut and stack labels are labels printed on web or large presses. After printing, the cut and stacked labels are cut into desired shapes or more typically cut into individual rectangular shapes and stacked. Applications for cutting and stacking labels include overlapping labels and then bonding the labels to themselves. Cutting and stacking labels is ideal for high volume applications because cutting and stacking labels is cost effective during production and they are the most custom designed product labels in the label market. This makes cutting and stacking labels cost-effective even if they are large.
