Abstracts

Digital Led Retail Banking is part of a digital transformation strategy. Network security can be the biggest threat. Digitalization has eroded the barriers to entry for the banking industry. Once it is possible to think that only government or very wealthy organizations are possible, today's new technology wealth has created so many wealthy organizations that they can enter in a short period of time, and the regulations of these technology companies have been alleviated in order to operate banking services.

Based on the Digital Led Retail Banking market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
