## Abstracts

A digital vault by its very nature is going to provide some standard services to ensure that its contents are protected, such as being a long-term repository, highly secured regardless of overall network security and regardless of the physical topology of the network. It must offer an effective way to protect and control critical information, and it allows an organisation to focus its defense resources to a vault at any location. It is easier for an organisation to defend one point effectively that to try and defend a complete network.

Based on the Digital Vault market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
