Abstracts

The digital workplace is the virtual, modern version of the traditional workplace. It quickly and securely provides personalised role-based services, and all the applications, data, and collaboration an employee needs on any device, anytime, anywhere through a consumer-like online experience. A digital workplace uses the latest in mobility services and digital technology to adapt to the way people work to increase employee engagement and satisfaction.

Based on the Digital Workplace Transformation Service market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
