## Abstracts

Put simple, dry white wine is any white wine that is not sweet. The lack of sweetness does not necessarily mean that there is no sugar present. However, the dry versions of white wines are defined by when the grapes are harvested along with the concentration of the juices. The longer the grape remains on the vine, the less sugar will be present because it is being turned by the yeast into alcohol due to the fermentation process. Based on the Dry White Wine market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
