Abstracts

The pharmaceutical product can be administered in different delivery forms. Studies have found that swallowing tablets is often difficult, especially for very young or very old people. To overcome this serious health problem, pharmaceutical companies have turned to user-friendly alternatives such as chewable tablets, lozenges, orally disintegrating granules and effervescent tablets.

Based on the Effervescent Products market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
