Abstracts

Electronic Bill Presentment and Payment (EBPP) is a process of electronically delivering the bills to the individuals and receiving the bill payment via the internet or through an electronic network. For instance, a customer receives the telephone bill via an e-mail. This e-mail also has a hyperlink mentioned by the service provider for the payment options. After reviewing the entire bill, the customer clicks on the hyperlink, selects the mode of payment and initiates the transfer of funds. The electronic bills delivery and receipt of payments can also be conducted via two separate networks. For example, in business to consumer transactions such as payment of utilities, the bills are received at the site in the form of paper and payment is done using debit or credit cards.
