Abstracts

Employee advocacy software enables companies to engage their workforce to share branded content and information via social channels. With these tools, brands are able to build pre-approved content libraries for their employees to access to share via mobile, email, or social media. These tools not only help broaden a company's social presence by engaging their employees, they also allow social media managers to have more control over company voice and messaging on social channels. Employee advocacy tools often play a part in companies' social selling strategies, enabling sales reps to effectively communicate with prospects and customers on social channels. Many of these tools offer gamification features to promote a higher volume of sharing amongst employees.

Based on the Employee Advocacy Software market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
