## **Abstracts**

Enterprise, Governance, Risk and Compliance (EGRC) is a multifaceted and innovative approach where the concerns related to corporate governance, risk management and compliance issues are seen as integrated, aligned and closely related strategic activities with a direct impact on business objectives. The main factor that is responsible for the emergence of EGRC as a business imperative in the organization is a growing demand for corporate governance, regulatory requirements and compliance. Also, a holistic approach to risk management is required with a more complex risk environment.

Enterprise, Governance, Risk and Compliance (EGRC) consists of different types of software such as audit management, risk management, business continuity, compliance & policy management, information security and data management, and regulatory change management. Moreover, it also includes enterprise risk assessment, financial and IT GRC, financial control management etc.

Based on the Enterprise Governance, Risk and Compliance (EGRC) market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
