Abstracts

The Enterprise Portal provides services to corporate customers, employees, and suppliers, providing the same services as portals, such as search engines, email, customization, and up-to-date content, as well as direct access to the Internet or other portals. Access to the enterprise portal is controlled by a password whose data is protected by a firewall. Also known as the corporate portal.

Based on the Enterprise Portal market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
