Abstracts

Feminine hygiene products (also called menstrual hygiene products) are personal care products used by women, for menstruation, vaginal discharge, and other bodily functions related to the vulva and vagina. These products are either disposable or reusable. Sanitary napkins or sanitary towels, tampons, and pantliners are disposable feminine hygiene products. Menstrual cups, cloth menstrual pads and period panties are the major categories of reusable feminine hygiene products.

Based on the Feminine Hygiene market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
