Abstracts

Floral Flavors and ingredients are used in food and beverages because they impart not only distinct flavors but also possess several health benefits. Flowers contain various levels of anti-oxidants, minerals and vitamins, and other nutrients. They enhance the taste and aroma of food and beverages without adding any extra calories. Different flowers and their extracts have different applications. Hibiscus-infused drinks such as hibiscus tea help in lowering blood pressure, support healthy cholesterol and triglycerides, fight cancer, prevent oxidative stress, reduce the risk of obesity, act as anti-depressants, and prevent the formation of kidney stones.

Based on the Floral Flavours market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
