Abstracts

Gap insurance pays for the difference between the value of a car at the time it's totaled or stolen and the balance of its loan or lease. Though it seems to refer to that difference, "gap" actually stands for "guaranteed asset protection." GAP insurance protects you when you make an insurance claim and receive a payout that's less than the cost or value of the car when you bought it. It will pay you the difference so you don't lose money.
