Abstracts

Gap insurance pays for the difference between the value of a car at the time it's totaled or stolen and the balance of its loan or lease. Though it seems to refer to that difference, "gap" actually stands for "guaranteed asset protection." GAP insurance protects you when you make an insurance claim and receive a payout that's less than the cost or value of the car when you bought it. It will pay you the difference so you don't lose money.

Based on the Gap Insurance market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.
