Abstracts

Liability insurance refers to the form of property insurance in which the insurer is liable for compensation when the insured legally responds to the third party's liability for compensation and is required to make compensation. Liability insurance is based on the civil liability of the insured to others according to law, and there is no insurance amount in the contract, and the compensation limit is specified. Liability insurance only covers the civil liability of the insured for negligence and infringement, and is not responsible for the damage caused by intentional acts. Except for special agreement, it usually does not include contractual liability for breach of contract.

Based on the General Liability Insurance market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.
