## Abstracts

Geriatric care is the term used to refer to care focused on older adults. Geriatric care services include a broad range of health, personal care and supportive services to meet the needs of elderly who possess limitations for self care due to injury, chronic illness, physical, mental and cognitive disability or other health related conditions. The services also include assistance with activities of daily living such as dressing, grooming, bathing, eating as well as daily instrumental activities such as house work and medication management. These services help people in maintaining or improving an optimal level of physical functioning and quality of life.

Based on the Geriatric Care Services market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
