## Abstracts

Goat cheese, goats' cheese, or chevure, is cheese made from goat's milk. Cow's milk and goat's milk have similar overall fat content. Goat cheese has been produced for thousands of years and may be one of the earliest dairy products produced. In its simplest form, goat cheese is made by allowing the raw milk to solidify naturally, then draining and pressing the curd. Other techniques use acid (such as vinegar or lemon juice) or rennet to condense milk.
