Abstracts

Golf players usually transport golf clubs in golf bags. Modern golf bags are made of nylon, canvas and/or leather with plastic or metal reinforcement and frames. Golf bags have several pockets for carrying all kinds of equipment and supplies needed on a round of golf course. In fact, all bags are cut with rigid support at the top opening, both for rigidity and for separating various types of clubs for easy selection. The more expensive bags have sleeves or pockets for each individual club in the main compartment, allowing easier removal of the required clubs from the bag and return without interference from the grips of other clubs or the internal hardware of the bag.
