Abstracts

Homeopathy is a field of alternative medicine, introduced by Samuel Hahnemann in 1796. It works on the principle of similarity of symptoms i.e. a substance causing symptoms of disease in healthy individual will show same symptoms in the sick. Based on the Homeopathic Remedies market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
