Abstracts

Hotel use dispensers refer to devices that are designed to dispense shampoo, conditioner, moisturizer, and body wash for the amount required by the user in the hotel. In hospitality, amenities are an essential part of a guest's experience. On a large scale, amenities are viewed as added benefits for a guest. Common inn and hotel amenities include personal care items such as shampoo, conditioner, dental kits, and shower caps. New innovations in the hospitality industry are resulting in personal care amenities being transitioned into dispensers. Many hotel amenity suppliers have traditionally offered mini flip-cap bottles that hold shampoo, conditioner, moisturizer, and body wash. They are still being produced in these bottles, but the shampoo, conditioner, and body wash now are offered in dispensers as well. Normally, these dispensers will be placed on a wall or counter or freestanding where the guests will press the dispenser to get it.
