Abstracts

Intellectual property refers to creations of the mind: inventions; literary and artistic works; and symbols, names and images used in commerce. A royalty is a payment to an owner for the ongoing use of their asset or property, such as patents, copyrighted works, franchises, or natural resources. A royalty payment is made to the legal owner of the property, patent, copyrighted work, or franchise by licensees or franchisees who wish to make use of it for the purposes of generating revenue or other such desirable activities. In most cases, royalties are designed to compensate the owner for the asset's use, and they are legally binding.

Based on the Intellectual Property Rights & Royalty market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.
