## Abstracts

IT as a Service (ITaaS) is an operational model in which information technology (IT) service providers provide information technology services to enterprises. The IT service provider can be an internal IT organization or an external IT service company. The recipient of ITaaS can be a line of business (LOB) organization in a business or small and medium business (SMB). Information technology is often provided as a hosted service with a clear list of IT services and pricing associated with each catalog item. Based on the It-As-A-Service (Itaas) market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.
