Abstracts

A lacrosse stick or crosse is used to play the sport of lacrosse. Players use the lacrosse stick to handle the ball and to strike or 'check' opposing players' sticks, causing them to drop the ball. The head of a lacrosse stick is roughly triangular in shape and is strung with loose netting that allows the ball to be caught, carried (known as 'cradling'), passed, or shot.

A modern lacrosse stick consists of a plastic molded head attached to a metal shaft. The head is strung with nylon or leather strings to form a pocket.
