## Abstracts

Wine is an alcoholic beverage made from fermented fresh grape fruit or grape juice. In fruits, because of the high glucose and fructose content of grapes, wine tastes when stored for a period of time, so wines are often made with grapes.

Based on the Luxury Wine market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
