## Abstracts

Modular Constructions and modular homes are prefabricated buildings or houses that consist of repeated sections called modules. 'Modular' is a construction method that involves constructing sections away from the building site, then delivering them to the intended site. Installation of the prefabricated sections is completed on site.

Prefabricated sections are sometimes placed using a crane. The modules can be placed side-by-side, end-to-end, or stacked, allowing a variety of configurations and styles.
