## Abstracts

Mortgage loans, also known as 'mortgage loans.' Refers to a form of loan used by banks in some countries. The borrower is required to provide certain collateral as a guarantee for the loan to guarantee the repayment of the loan. Collaterals are generally easy to store, not easy to wear, and easy to sell items, such as securities, bills, stocks, real estate, etc.

A mortgage outsourcing service can offer mortgage lead generation, mortgage loan processing support, loan acquisition, mortgage verification services, mortgage processing support, mortgage servicing as well as services for title search companies. Based on the Mortgage Outsourcing market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
