## Abstracts

Packaging has become a huge part of product life. Every item we purchase is coming wrapped often in plastic, foil, or films. But now a natural, biodegradable packaging is available that is mushroom packaging. It is a new innovative packaging presentation which was launched by Ecovative design in 2010, a USA based company that is engaged in R&D of environment friendly material. Mushroom packaging is made up using fungi cultured on a medium of husk, hulls and woody biomass of different agriculture waste including rice, soy and cotton. These waste material are substrate to which the fungal mycelium, essentially that root system is the fungus is added.
