## Abstracts

Mustard flour is the powder made by grounding mustard seeds from various mustard plants species such as Brassica and Sinapis. Mustard flour has been used as seasoning since ancient times, and is now added to meat, chicken poultry and fish dishes, salads and other savory sauces. Mustard flour is made from the seeds of the either yellow, brown or golden mustard plant, which are then ground and mixed with a liquid to form a spreadable paste.

Based on the Mustard Flour market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
