Abstracts

At night, under the surface of the skin, the cells are undergoing recovery, regeneration and reconstruction activities. At this time, the rate of cell renewal is about 8 times faster than that during the day. The absorption rate of skin care products and nourishment products is particularly high, and the effect is daytime care effect. Eight times.

Therefore, at night (when the skin cells grow and repair most vigorously), the correct skin care steps and products are used to give the skin double care and care, called night skin care. Including good night water, eye cream, essence and so on.

Based on the Night Skin Care Products market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields.
