## Abstracts

They are subjected to light rubbing or friction, in order to remove dirt or liquid from the surface. Consumers want wipes to absorb, retain or release dust or liquid on demand. One of the main benefits that wipes provide is convenience – using a wipe is quicker and easier than the alternative of dispensing a liquid and using another cloth/paper towel to clean or remove the liquid.

Based on the Nonwoven Wipes market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.
