## Abstracts

Online accounting tools are specifically designed to be used over the Internet rather than being installed locally on corporate computers. This reduces information technology requirements such as server hardware, backup and maintenance, and shifts spending from a large upfront capital cost to a smaller but ongoing monthly or annual fee.

Based on the Online Accounting Tools market development status, competitive landscape and development model in different regions of the world, this report is dedicated to providing niche markets, potential risks and comprehensive competitive strategy analysis in different fields. From the competitive advantages of different types of products and services, the development opportunities and consumption characteristics and structure analysis of the downstream application fields are all analyzed in detail. To Boost Growth during the epidemic era, this report analyzes in detail for the potential risks and opportunities which can be focused on.

In Chapter 2.4 of the report, we share our perspectives for the impact of COVID-19 from the long and short term.

In chapter 3.4, we provide the influence of the crisis on the industry chain, especially for marketing channels.

In chapters 8-13, we update the timely industry economic revitalization plan of the country-wise government.
